218 North 30th Street · Allentown, PA 18104 · (484) 241-0122 · jasonls1015@outlook.com

Senior Technical Writer · Documentation Architect · Developer Experience

Senior technical writer with 20+ years of experience delivering hardware, software, and API documentation for global engineering teams. Builds docs-as-code workflows, structured content systems, and AI-assisted documentation tooling that scale with growing engineering organizations. Comfortable working directly with SMEs, developers, and cross-functional stakeholders to turn complex technical detail into documentation teams actually use.

Skills

Core technical writing: DITA, Tridion Docs, XMetaL, FrameMaker (Structured/Unstructured), Markdown, XML, Sphinx, Readme.io, Adobe AEM, Salesforce CMS

Docs-as-code & developer tooling: GitHub, Gerrit, Linux, Docker, Sphinx, RST, CI/CD documentation workflows, semantic authoring systems

AI and automation: Python, Retrieval-Augmented Generation (RAG), Claude, Slack bot development, embeddings-based search, content automation, ExtendScripts, Power Automate

Collaboration: Jira, Confluence, SharePoint, Teams, Slack, Jama, Microsoft 365

Deliverables: API documentation, architecture diagrams, installation guides, training content, white papers, reference manuals, developer onboarding content

PROFESSIONAL EXPERIENCE

Publications Manager, Intellicheck

Remote · June 2023 to August 2026

- Led Intellicheck's first docs-as-code initiative using GitHub, Markdown, and Readme.io to modernize developer documentation workflows.
- Converted legacy API documentation from Word to Markdown, improving clarity, consistency, and maintainability.
- Migrated publications to a semantic XML + Markdown authoring platform to produce single-sourced WebHelp output.
- Designed and directed development of ROOTS, a Slack-integrated retrieval-augmented generation (RAG) Python application using Claude to answer developer questions about API endpoints and internal functionality.
- Built Confluence spaces for onboarding, technical publications best practices, and internal communication.

Staff Technical Writer, Intel

Allentown, PA · July 2014 to April 2023

- Delivered 700+ publications for electrical engineers, developers, and SMEs across semiconductor and architecture teams.
- Designed diagrams and illustrations for high-level architecture documents to accurately depict logical flows, sequences, waveforms, and circuit blocks for electrical engineers and developers.
- Collected, organized, and implemented thousands of comments from contributors to shared reviews with Adobe Acrobat and Microsoft Word, improving documentation turn-around time.

Senior Technical Writer, Broadcom

Allentown, PA · July 2011 to July 2014

- Documented integrated circuits for the storage industry with a team of six collaborative writers by interviewing subject matter experts (SMEs) and analyzing

design documents, resulting in customized content for hard-disk-drive (HDD) manufacturers.

- Developed custom FrameMaker ExtendScripts applications to automate complex documentation build processes, resulting in improved quality and significant savings of time and resources.

Technical Writer, Innovative Control Systems

Wind Gap, PA · May 2007 to July 2011

- Worked closely with quality assurance, development, marketing, and support to write more than 40 manuals, requirements specifications, technical briefs, installation guides, quick references, instruction sheets, and brochures, significantly improving both the quality and quantity of documentation for a small business with a loyal customer base.
- Developed online training with Adobe Captivate for point-of-sale cash management software, enabling car wash owners to provide employees with progressive and interactive learning resources.

Applications Support Specialist, Agere Systems

Allentown, PA · November 2000 to December 2005

- Collaboratively reviewed and revised highly detailed integrated circuit specifications, resulting in cleaner templates, standardized drawings, improved indexes, and more efficient content workflows.

EDUCATION

New Jersey Institute of Technology, Master's Degree (Summa Cum Laude)

- Professional & Technical Communications

Indiana University of Pennsylvania, Bachelor's Degree

- Journalism Major
- Computer Science Minor

MEMBERSHIPS

Member and volunteer at the Society for Technical Communications (STC), Philadelphia Metro Chapter

TRAINING

- *Creating API Documentation*, LinkedIn Learning Certificate
- *Getting Started with GitHub*, Pluralsight Training
